## TERSELY TOLD.

The fishing schooners Ruth A. Welles and Kwasind arrived in port yesterday with a total catch of 1,600 snappers for Saunders & Co.

The British steamer Goodwood, con signed to the W. S. Keyser Co., ar rived in port yesterday afternoon to late to enter at the custom house.

E. T. Davis left at noon yesterday for Asheville, N. C., where he will remain for eight or ten days, after which he will pass through Georgia into Florida. His trip to Asheville is in order that he may be able to enter Georgia and Florida counties Mr. Davis desires to go to Bristol, Lu liberty county, and is taking this roundabout trip to reach there, where he has several large tracts of land for sale. He will return to the city about Sept. 25.

### Make Your Guess.

A beautiful young lady and her once beautiful mother were walking down the street together when they met two gentlemen whom the mother knew.

"How much your daughter resembles you?" exclaimed one.

"How closely you resemble your daughter!" exclaimed the other.

Now, which of these two gentlemen do you think was invited home to tea?

### A Mother's Answer.

When Earl Ferraris had been convicted of murder great efforts were made to obtain a pardon on the ground that he was insane. His mother being appealed to and requested to write a strong letter on the subject, answered, "Well, but if I do, how am I to marry off my daughters?"—Green Bag.

### At Her Best.

"This picture of your wife is an-gelic. Does it look like her?" "Well—er—it looked like her when she was posing for the photograph, yes."—Detroit Free Press.

### Good Little Boys.

Mother—I'm glad you're playing with good little boys now. Tommy—Yes'm. They ain't like the other kind. I kin lick any one o' dese kids if I want'er.—Philadelphia Ledger.

### The True Philosopher.

There may be wisdom without knowl-edge, and there may be knowledge without wisdom, but it is the who pos-sesses both that is the true philosopher.—Robert Southey.

## THE DETENTION CAMP AT FLOMATON

Will Not Be Established Before  
Latter Part of This Week, or  
First of Next.

The detention camp at Flomaton, which is to be established there by the Marine Hospital Service, in order that refugees may procure bills of health entitling them to enter other states, will not be established as early as at first anticipated. In fact it will be the latter portion of this week or the first of next week before the camp is ready to receive refugees.

The equipment is to come from Camp Perry, near Jacksonville, and after its arrival, there will be a vast amount of work to be done in placing the camp in order. Tents must be stretched, floors placed, a kitchen arranged, and attendants and cooks employed, besides numerous other mat-ters which will have to be arranged before the camp is ready.

Dr. Porter will go up to Flomaton tomorrow and meet Surgeon Banks, of the service, who will have charge of the camp, and the two will look over the territory and select a site. As soon as the equipment arrives the work will commence, as it is the desire to have it ready as soon as possible.

From present indications the camp will not be adequate to accommodate the crowd that wish to get out on the first day. So far Dr. Porter has had numerous inquiries, but some of the parties will have to remain here until others are discharged before they can get accommodations.

### Cause of Insomnia.

Indigestion nearly always disturbs the sleep more or less and is often the cause of insomnia. Many cases have been permanently cured by Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

Low rates at Southern Hotel for rooms and board.

### Model Wives.

In a wedding sermon entitled "The Rib Restored," preached in St. Dionis Back church, Fenchurch street, in 1655, by Richard Mergot, afterward dean of Salisbury, the preacher thus defined a good wife:

"A help she must be in her family, being not only a wife, but a housewife—not a field wife, like Dinah, nor a treet wife, like Thamar, or a window wife, like Jenebel, but a housewife."

And another preacher about the same date, the Rev. Simeon Singleton, said that a wife should be at once like and unlike three things. "First, she should be like a snail, always keep within her house; but she should not be like a snail, carry all she has upon her back. Secondly, she should be like an echo, to speak when she is spoken to; but she should not be like an echo, always to have the last word. Thirdly, she should be like the town clock, always keep time regularly; but she should not be like the town clock, to speak so loud that all the town may hear her."—T. P.'s London Weekly.

### Patently Wait For Her.

A Missouri contemporary rises to re-mark: "Once I was young, but now I am old, and I have never seen a girl that was unfaithful to her mother that ever came to be worth a one eyed but-ton to her husband. It is the law of God. It isn't exactly in the Bible, but it is written large and awful in the miserable lives of many unft homes. I'm speaking for the boys this time. If one of you chaps comes across a girl that, with a face full of roses, says to you as she comes to the door, 'I can't go for thirty minutes, for the dishes are not washed yet,' you wait for that girl. You sit right down and wait for her, because some other fellow may come along and carry her off, and right there you lose an angel. Wait for that girl and stick to her like a bur to a woolly dog."

## CITIZENS HOLD INTERESTING MEETING

At City Hall and Discuss Yellow  
Fever Situation—Committees  
Are Appointed.

A meeting of citizens, which was quite largely attended, was held yesterday afternoon at 4 o'clock in the city hall, the meeting being called by Mayor Bliss for the purpose of discussing the yellow fever situation and to take some action to assist the health authorities in stamping out the disease.

Mayor Bliss stated the object of the meeting and particularly called attention to one case in which the patient had not been confined to his bed, but had been about the city and probably infected mosquitoes at several places; also giving other reasons for antici-pating further infection. He did not think the city would have sufficient funds to meet a prolonged struggle with the fever.

Mr. Stillman stated that the Chamber of Commerce had already appointed a committee which would be ready to take part in a general movement.

Mr. Christy moved that a committee of fifteen with the mayor as chairman, be appointed to co-operate with the committee of the Chamber of Commerce in raising funds and fighting the fever. It was unanimously carried.

Dr. Pierpont addressed the meeting and gave it as his opinion that the fever could be stopped by a general effort in aid of the health officials.

Mr. Goodman moved to appoint a committee of five with Dr. Pierpont as chairman, to find skilled, immune nurses and report them to the general committee.

The General Committee. Chairman Bliss afterwards named the following committee as a general committee to work in conjunction with a similar one named by the Chamber of Commerce: Chas. H. Bliss, ex-offi-cio; Jno. E. Stillman, W. H. Knowles, P. K. Yonge, C. W. Lamar, J. Ed. Williams, John Christie, John G. Oliver, C. C. Goodman, F. E. Brawner, J. R. Saunders, James McHugh, Sol. Cahn, J. S. Reese and Oscar E. Maura.

The Relief Committee. The mayor also named another com-mittee, the duties of which will be to see that the sick are promptly cared for, and to be known as the relief com-mittee. This is composed of J. Har-riis Pierpont, D. Hale Wilson, W. B. Ferriss, Henry S. White and C. C. Goodman.

Meeting This Afternoon. The general committee from the meeting yesterday afternoon and the one from the Chamber of Commerce will meet this afternoon at 3 o'clock at the city hall, where arrangements for a commencement of the work will be made.

Mayor Bliss also desires that all per-sons who are immune and who will assist in the work of caring for the patients advise him, in order that they may be known should their services be needed.

A Remedy Without a Peer

"I find Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used for stomach trouble," says J. P. Klotz, of Edina, Mo. For any disorder of the stomach, biliousness or constipation, these Tablets are without a peer. For sale by all druggists.

### LAUNDRY NOTICE.

Owing to the scarcity of collections and the absence of Mr. Walker In-graham from the city, it is necessary to place the business on a cash basis. Monthly customers are hereby noti-fied that money must be left at home to pay delivery man, or package will be brought back to laundry office.

STAR LAUNDRY.  
Sept 1w By H. J. Mackey.

### Monkeys and Knots.

The monkey's intelligence has never been able to arrive at a point which enables that animal to achieve the un-tying of a knot. You may tie a monkey with the simplest form of common knot, and unless the beast can break the string or gnaw it in two he will never get loose. To untie the knot re-quires observation and reasoning power, and though a monkey may pos-sess both, he has neither in a sufficient degree to enable him to overcome the difficulty.

### Handing Out a Hint.

School Director (to teacher): We were thinking of having a nice motto framed and put over your desk to encourage the children. How would "Knowledge Is Wealth" do? Teacher: That wouldn't do at all. The children know how small my salary is, and they might draw conclusions of their own.

### Sullivan and Booth.

It is a pathetic as well as a humor-ous remark that Laurence Hutton in his reminiscences attributes to John L. Sullivan. When the news came of the death of Edwin Booth the great fighter in sincere sorrow remarked, "Well, there are only a few of us left."

### Asking Too Much.

He With the Whiskers—Say, feller, why don't you wear two glasses in-stead of only one? He With the Mon-ocle—Why, deuce take it, I know, a feller has to see, doesn't he?—Cleve-land Leader.

Never be grandiloquent when you want to drive home the truth. Don't whip with a switch that has the leaves on it if you want to tingle.—Beecher.

## MALARIA UNDERMINES THE HEALTH

When the germs of malaria enter the blood the entire health is affected, and if the blood is not purified of these germs and microbes, Chronic Sores and Ulcers, Liver Spots, Chills and Fever, Boils, Aches and Pains, and a great variety of troubles manifest themselves, and soon the entire system is undermined, leaving the sufferer a prey to a most miserable, weak and nervous condition.

618 W. Market St., Louisville, Ky.  
For several years I suffered with Chills and Fever, caused by Malaria in my system, and each summer for several years I would have a relapse. Finally my physician prescribed S. S. S. I took a few bottles; this was about six years ago. It entirely cured me, and I have never been troubled since. I am sure no other medicine could have cured me so complete and immediate relief, and I cannot speak too highly of S. S. S. My partner in business is now taking S. S. S. for an eruption of the skin, and a general run-down condition of the sys-tem, and although he has taken but one bottle, already commences to feel better. I. SHAPPOFF.

S. S. S. counteracts and drives all the poison from the blood and builds up the system by its fine purifying qual-ities and tonic effects. It strengthens every part, increases the appetite, helps the stomach and digestion, and by sup-plying the body with rich, pure blood, cures Malaria and all its disagreeable ail-ments. Unlike most blood medi-cines S. S. S. is purely vegeta-ble. It does not contain a particle of mineral of any kind to disagreeably affect the stomach, diges-tion and bowels, but by cleansing and strengthening the blood, puts every part of the body in healthy condition. Book on the blood and any medical advice de-sired without charge.

**SSS**  
PURELY VEGETABLE.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

(Extract from Revised Stat-utes of Florida.)

"Sec. 765.—PENALTY FOR SPREADING FALSE RE-PORTS OF DISEASE.—Any person or persons who shall falsely or maliciously dissemi-nate or spread rumors or re-ports concerning the existence of any infectious or contagious disease, shall be guilty of a misdemeanor, and upon con-viction therefor, shall be punish-ed as provided by Section 765." "Sec. 765. Shall be fined in a sum not less than \$100 nor more than \$1,000 or be impris-oned in the county jail for not less than three nor more than six months."

## NORTHERN FIRM HAS FAITH IN SOUTH

Is Surprised that People Should Go  
Into Hysteria Over Yellow  
Fever Situation.

The following letter received by a business man of Pensacola but con-firms what The Journal has recently said "concerning the way yellow fever is now regarded by all people who have taken time to study the manner of its transmission and the means by which medical science and modern sanitation are able to control it. Com-ing from a northern business firm and reflecting, as it does, the sentiment in reference to yellow fever in that section of the country, the letter is from a business standpoint, one of consider-able reassurance.

The letter follows:

A Reassuring Letter.  
Sept. 8, 1905.  
Mr. F. B. Bruce, Pensacola, Fla.

Dear Sir—Yours of the 5th inst. to hand. We have not a grain of doubt that you will have the best business in Pensacola this winter that you have had in years. We think the out-look for trade South is promising.

We do not believe that the yellow fever will be serious. We are sur-prised that in the present day of san-itation there should be as much alarm as there is. As far as we can learn there have not been a score of deaths in the whole South of people who take care of themselves and live under proper condition of health and clean-liness.

We can realize that the stagnation makes you feel blue for the moment, but we believe people will soon get over the alarm and excitement.

Yours Truly,  
SCHOVERLING, DAILY & GALES.

Almost all apes have beards. Dar-win says that gorillas, chimpanzees and orang outangs have also stiff and bristly hairs upon their upper lips, re-sembling cats' whiskers. The beards of apes possess a remarkable resem-blance to those of men, in being al-most invariably lighter in color than the hair of the head. In apes the chin growth is most frequently yellow or red, becoming white in age. It is common to both sexes, although more strongly developed in the male. Apes—and monkeys also—have eyebrows as well, which do not grow thickly to-gether as in human beings, but are scattered through the hair, covering the part of the face which would be called the forehead in man.

## PRIESTS FIGHT THE YELLOW FEVER

They Do Fine Work in New Orleans  
In Educating People on Pro-tection Measures.

The Catholic Citizen of Sept 9, pub-lished at Milwaukee, Wis., contains the following:

Speaking at a mass meeting held in New Orleans on Saturday last to dis-cuss the yellow fever situation, Rev. Albert Biever, S.J., confessor to the late Archbishop Chapone, said that if the Catholic priests and not appeared on the lecture platform in the cam-paign of educating the people to the new doctrine of fever transmission by mosquitoes, it was because they had their duties to perform in going to the homes of the stricken ones, preparing the dying, comforting the living and helping the poor and needy. The graves of the Southland are dotted with the tombs of young and heroic priests who have laid down their lives in the fulfillment of their duties.

Father Biever said that Catholic priests were among the first to sup-port the theory of transmission of yel-low fever by mosquitoes. In 1899 an English Jesuit wrote from Honduras that upon accurate and serious obser-vation he had come to the conclusion that "the sickness" (meaning yellow fever) was transmitted by the bites of a mosquito.

In Havana Jesuit priests sub-mitted themselves to the bites of mosquitoes to aid in the researches of the scientists. At Tulane Hall, in New Orleans, long before this theory was agitated there, a Jesuit priest lectured on insect life before an audi-ence of 2,200 people, and gave illus-trations on the screen of the amphi-theatre and stegomyia mosquitoes.

The first lantern slides for Dr. Quit-man Kohuke's illustrated lecture were made by a Jesuit father, and the first invitation received by Dr. Kohuke to deliver his now famous lecture was extended to him by Jesuit fathers; and the first illustrated lecture given in New Orleans on the mosquitoes and the transmission of yellow fever and the first illustrated lecture given in the Jesuits' hall, on Baronne street. If the warning that was sent out to the city on that memorable evening had been heeded, New Orleans would perhaps never have seen the trying times through which it is passing now.

Father Biever gave several facts in support of the theory that yellow fever is not a contagious disease. He concluded as follows:

"Many priests in the old times of malignant yellow fever noticed that the use of tobacco proved a protection against yellow fever, and they indulged freely in the weed. How rational in the light of the mosquito theory, this otherwise futile precaution. I know of hundreds of this city who wear around their necks little bags of strong camphor, and believe thus to stave away the infection. It is indeed the mosquitoes that keep away, for they, like all insects that possess the sense of smell, are repelled by the pungent odor of camphor."

Cured of Lame Back After 15 Years

"I had been troubled with lame back for fifteen years and I found a com-plete recovery in the use of Cham-berlain's Pain Balm," says John G. Bisher, Gilman, Ind. This liniment is also without an equal for sprains and bruises. It is for sale by all drug-gists.

Low rates at Southern Hotel for rooms and board.

### Tall Enough to Stand It.

"Mrs. Spudsworth, it seems to me," said Mrs. Oldcastle, "is rather inclined to loquacity."

"Still," replied her hostess as she strengthened the \$1,900 rug, "for a per-son as tall as her it ain't so bad as though she was shorter."—Chicago Record-Herald.

### Attendance Accounted For.

Rev. Dr. Torker—I'm pleased to see that you attend church so regularly. I hope you have found grace. Par-gorn—Excuse me, but her name is Helen. Ah, there she is now. Good morning!

### Feline Soliloquy.

"I wonder," mused the family cat, after carefully inspecting the new mouse trap, "if that is intended as a labor saving device for my benefit or if I'm in danger of losing my situation."

### Apes and Beards.

Almost all apes have beards. Dar-win says that gorillas, chimpanzees and orang outangs have also stiff and bristly hairs upon their upper lips, re-sembling cats' whiskers. The beards of apes possess a remarkable resem-blance to those of men, in being al-most invariably lighter in color than the hair of the head. In apes the chin growth is most frequently yellow or red, becoming white in age. It is common to both sexes, although more strongly developed in the male. Apes—and monkeys also—have eyebrows as well, which do not grow thickly to-gether as in human beings, but are scattered through the hair, covering the part of the face which would be called the forehead in man.

## DR. FENNER'S Kidney AND Backache Cure

ALSO PURIFIES THE BLOOD.

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a lifetime curing just such cases as yours. All consultations FREE.

A Grand Old Soldier.  
Troubled With Severe Pains in His  
Back for 30 Years.

I have been troubled with severe pains in my back and kidneys for over 30 years caused by exposure during the Civil War.

I tried many Patent Medicines and physicians but could secure no permanent relief.

A sample bottle of Dr. Fenner's Kidney and Backache Cure was given me and it did me so much good that I finally took several of your dollar sized bottles which effected a prompt and permanent cure.

It is pleasant to take. You may refer any one to me as I shall take great pleasure in recommending it.

### POWDERED TEA.

It Is Said to Make a Better Infusion Than the Whole Leaves.

An English traveler says in a letter to the London Times: "History tells us that when coffee was first brought to the cities of western Europe the first makers of it were Turks. They roasted and ground the berries and served the liquor, as it is served to this day in the east, grits and all. We still drink coffee as we drank it then, with this difference—that we mostly omit the grits and drink an infusion instead of a decoction. It was not so with tea. No Chinaman was imported with the first pound of tea to teach us how to make and drink it. The consequence has been that we have never drunk tea in the Chinese way—that is, as a simple infusion.

"At first there seems to have been great doubt as to how to deal with the new herb. It is even said that it was sometimes boiled with salt and butter and served up as a sort of spinach. The old phrase 'a dish of tea' seems to bear out this legend. Finally it came to be settled that the most wholesome and pleasant way to treat the tea leaf was to make it into a kind of sweet soup with sugar and milk or cream. I have personal knowledge of no country in Europe but one where tea is used as in China—Portugal, which got its knowledge of teamaking from a province of China with which at this time no other nation of Europe was in contact.

"It was while traveling on horseback with a guide in the wider parts of Portugal, away from shops and inns, where we had perforce to make experi-ments in the most economical use of the few ounces of tea and coffee that we could afford to carry with us, that we hit upon a discovery. Having no milk, we drank our tea, as most Por-tuguese drink theirs, as a simple infu-sion, sweetened with sugar.

"I remembered to have read, I be-lieve in the travels of the Abbe Hue, that when the Chinese desire to be thrifty in the use of the finer and more expensive teas they grind the leaf to powder and use less for the infusion. We found that tea could be ground in a coffee mill as easily as coffee, that tea made with the powder is as good as or better than when made with the whole leaf and that the powder, naturally, goes further than the tea leaf."

### The Cause.

Kilson—Gaylord's wife used to be awfully stout, and now she is quite thin. What caused the change, I wonder? Marlow—Divorce. This isn't the same wife.—Town and Country.

A bad man is worst when he pre-tends to be a saint.—Bacon.

## WHY IT SUCCEEDS.

Because it's for One Thing Only and Pensacola is Learning This. Nothing can be good for anything. Doing one thing well brings suc-cess.

Doan's Kidney Pills do one thing only.

They're for sick kidneys. They cure backache, every kidney ill.

Here is Pensacola evidence to prove it.

Mrs. Martha A. Stevens, residing at 209 East Gadsden street, says: "I have been a friend of Doan's Kidney Pills for a long time, and I always recommend them to everyone I hear complaining of backache or kidney ill of any kind. This remedy has been used in my family off and on for years and the pills have never been found wanting to anyone requiring a kidney medicine. No one need hesitate about going to Sidney Kahn's drug store, No. 9 South Palafox street for they will not be disappointed in the results obtained."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.
